Biomed shift takeover phone conference

[\[Éditer\]](#)

Date: September 30th 2013 by mail

Attendees:

- Doan Trung Tung (IFI)
- Jerome Pansanel (CNRS IPHC)

Next conference: October 7th 2013, 10h.

General information

[\[Éditer\]](#)

Now only the Nagios box on host grid04.lal.in2P3.fr must be used. This week, a VO feed has been set to refresh from a top BDII the list of resources monitored every 24 hours.

Consequence: we should no longer (at last!) has resources monitored although they were decommissioned.

Remind about best practices:

- in tickets submitted: add the full log of the manual test, not only the result, add the link to the result of the faulty Nagios probe, not only the the root URL of Nagios.
- don't forget to set the appropriate priority when submitting a ticket (top by default, which only applies for critical errors of VOMS or LFC typically),
- CC the biomed issues follow up list.
- Shifters can add comments at the bottom of a host or probe page of Nagios. It can be used to leave info for the next shift, for instance saying "this SE has already been decommissioned, ignore it".
- Nagios comments should be added to machines that have not to be monitored (not in production or suspended)
- If a queue is drained and a downtime is published for the site, no ticket should be open.

Takeover report

[\[Éditer\]](#)

Because of Nagios problem, CEs could not be monitored this week.

Verified tickets:

- https://ggus.eu/ws/ticket_info.php?ticket=96735 
- https://ggus.eu/ws/ticket_info.php?ticket=97038 

IFI's tickets : because of network problems, all we can do is waiting.

SEs

[\[Éditer\]](#)

2 out of 3 SE alarms on Nagios has problems:

- https://ggus.eu/ws/ticket_info.php?ticket=97599 
- https://ggus.eu/ws/ticket_info.php?ticket=97600 

CEs

[\[Éditer\]](#)

Nothing to report.

WMS

[\[Éditer\]](#)

Nothing to report.
