

Meeting minutes

Meeting date: 12/04/2011, 1pm

Participants:

- vlemed VO, Dutch NGI: Mark Santcross, Jan-Just Keijser
- German life-science community: Dagmar Krefting
- HealthGrid: Yannick Légré, Haitas Niobe, Romain Tartière
- biomed VO / French NGI: Franck Michel, Tristan Glatard, Johan Montagnat
- Spanish NGI: Ignacio Blanquer
- EGI UCB: Steve Brewer, Gergely Sipos

Next meeting (phone conf): May 11th, 11:30am

1 Meeting agenda

- Setting up of the EGI MoU
- Requirement analysis
- Training
- Technical Coordination
- News and dissemination

2 Setting up of the EGI MoU

- who's signing the document? the LSGC chairman (changes every 6 months) + the HealthGrid representative.
- Todos on the document: statistics clarification on A2
- Silvia's comments on liaison with EMI and how egi will help/intermediate communication with NGIs. SB agrees that it should be part of the document.
- YL: another point raised by Johan in A3: participation of EGI.eu to LSGC meetings? SB: annual conference.
- Proposed VRC representatives (will be reviewed annually). Coordinator: Tristan Glatard, Technical Coordination : Franck Michel, User support and training : Silvia Olabariaga, Operational issues : Ignacio Blanquer, Dissemination : Dagmar Krefting.
- GS has language corrections (to be sent) ; article 2 - definition (a): remove "the Virtual Organization".
- GS: article 3, a.1. Remove USAG from expected outcomes. GS will send a better sentence for item 3 of the expected outcomes.
- GS: article 3, a.2. Service list may change over time. → "early outcomes will be a set of tools".
- page 15: fix "made be made"
- JJK: "liaison with technology providers via TCB" instead of "liaison with EMI"?
- → Tristan to send revised version to GS and SB.

3 Requirement analysis

Answers to EGI will be collected on a dedicated wiki page to allow feedback from the VOs.

- MS: there is a duplication biomed/vlemed in the requirements
- SB: talk to Karolis in EGI support team.
- → Romain will create a dedicated wiki page on the VRC

4 Feedback on training organization

- the setting up of shiwa and gate training was difficult
- JM has a detailed description of the technical issues. SB: send it to ucst@egi.eu
- GS is in contact with the IT GILDA to get training resources.
- GS: EGI roadshow template will contain guidelines to organize trainings
- SB: training marketplace will also contain information about training for trainers.
- YL: agenda of the EDGI training was circulated. Don't hesitate to advertise it.

5 Technical coordination

- EMI beta testing: waiting for info from EMI. YL: Romain will be involved. IB: involved in the beta testing too. GS: TCB meeting last week, "large-scale testing" came up. Instead of going directly to EMI, talk to Michel Drescher (technical contact point at EGI).
- GS: Tiziana promised to get documentation on how to set up redundant services. JJK: look at how Atlas is organized in the CIC portal. Look at their VO ID Card in the CIC portal. These 3 VOMS servers are always synchronized. JJK: not aware of what happens if you don't synchronize.

6 News and dissemination

- DK: HPC-DCI MICCAI workshop CFP released. Pls advertise.
- One week left to the HG deadline. Send reminders.
- app gadget released by EGI: a "Life-Science" version to be embeded in the wiki with a disclaimer: "Disclaimer: all the Life-Sciences applications ported to EGI are listed here. Some of them are ported to VOs that are not involved in the LSGC.". Not up-to-date: please advertise application developpers of your VOs to add their informations.
